INDEPENDENT AUDITORS' COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

April 12, 2019

Board of Trustees
Watertown Charter Township
Grand Ledge, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of *Watertown Charter Township, Michigan* (the "Township") as of and for the year ended December 31, 2018, and have issued our report thereon dated April 12, 2019. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated January 22, 2019, our responsibility, as described by professional standards, is to form and express opinions about whether the financial statements that have been prepared by management with your oversight are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the Township solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our engagement letter and in our meeting about planning matters on March 18, 2019.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm have complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the Township's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Township is included in Note 1 to the financial statements.

There have been no initial selections of accounting policies and no changes in significant accounting policies or their application during the year.

No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements were:

- Management's estimate of the useful lives of depreciable capital assets is based on the length of time it is believed that those assets will provide some economic benefit in the future.
- Management's estimate of the accrued compensated absences is based on current hourly rates and policies regarding payment of sick and vacation banks.

We evaluated the key factors and assumptions used to develop these estimates and determined that they are reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Significant Difficulties Encountered During the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. None of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Township's financial statements or the auditors' report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in Attachment B to this letter.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the Township, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Township's auditors.

Other Information in Documents Containing Audited Financial Statements

Our responsibility for the supplementary information accompanying the financial statements, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. We made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Upcoming Changes in Accounting Standards

Generally accepted accounting principles (GAAP) are continually changing in order to promote the usability and enhance the applicability of information included in external financial reporting. While it would not be practical to include an in-depth discussion of every upcoming change in professional standards, Attachment A to this letter contains a brief overview of recent pronouncements of the Governmental Accounting Standards Board (GASB) and their related effective dates. Management is responsible for reviewing these standards, determining their applicability, and implementing them in future accounting periods.

This information is intended solely for the use of the governing body and management of *Watertown Charter Township* and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Rehmann Johnson LLC

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Attachment A - Upcoming Changes in Accounting Standards / Regulations

For the December 31, 2018 Audit

The following pronouncements of the Governmental Accounting Standards Board (GASB) have been released recently and may be applicable to the Township in the near future. We encourage management to review the following information and determine which standard(s) may be applicable to the Township. For the complete text of these and other GASB standards, visit www.gasb.org and click on the "Standards & Guidance" tab. If you have questions regarding the applicability, timing, or implementation approach for any of these standards, please contact your audit team.

GASB 83 ■ Certain Asset Retirement Obligations

Effective 06/15/2019 (your FY 2019)

This standard addresses accounting and financial reporting for certain asset retirement obligations--legally enforceable liabilities associated with the retirement of a tangible capital asset. We do not expect this standard to have any significant effect on the Township.

GASB 84 ■ Fiduciary Activities

Effective 12/15/2019 (your FY 2019)

This standard establishes new criteria for determining how to report fiduciary activities in governmental financial statements. The focus is on whether the government is controlling the assets, and who the beneficiaries are. Under this revised standard, certain activities previously reported in agency funds may be reclassified in future periods. Due to the number of specific factors to consider, we will continue to assess the degree to which this standard may impact the Township.

GASB 87 ■ Leases

Effective 12/15/2020 (your FY 2020)

This standard establishes a single model for reporting all leases (including those previously classified as operating and capital). Lessees will now report offsetting intangible lease assets and lease liabilities equal to the present value of future lease payments. Lessors will report offsetting lease receivables and deferred inflows of resources.

GASB 88 ■ Certain Disclosures Related to Debt

Effective 06/15/2019 (your FY 2019)

This standard provides guidance on note disclosures related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. We do not expect this standard to have any significant effect on the Township.

GASB 89 ■ Accounting for Interest Cost Incurred before the End of a Construction Period

Effective 12/15/2020 (your FY 2020)

This standard eliminates the requirement for governments to capitalize interest during the construction period for business-type activities. As this simplifies the accounting for interest, early implementation is encouraged. We do not expect this standard to have any significant effect on the Township.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Attachment A - Upcoming Changes in Accounting Standards / Regulations

For the December 31, 2018 Audit

GASB 90 ■ Majority Equity Interests

Effective 12/15/2019 (your FY 2019)

This standard addresses situations in which a government acquires a majority of the equity interest in a legally separate organization, and whether such holdings should be reported as an investment or a component unit. We do not expect this standard to have any significant effect on the Township.

Attachment B - Management Representations

For the December 31, 2018 Audit

The following pages contain the written representations that we requested from management.

April 12, 2019

John Maahs
Supervisor

Rehmann Robson
675 Robinson Rd
Jackson, Michigan 49203

Deborah Adams
Clerk

Janice Thelen
Treasurer

This representation letter is provided in connection with your audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of ***Watertown Charter Township, Michigan*** (the "Township"), as of and for the year ended December 31, 2018, and the related notes to the financial statements, for the purpose of expressing opinions on whether the basic financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows, where applicable, and the budgetary comparison for the general fund of the Township in conformity with accounting principles generally accepted for governments in the United States of America (U.S. GAAP).

Chad Cooley
Trustee

Todd Hufnagel
Trustee

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm that, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves as of April 12, 2019:

Holly Madill
Trustee

Financial Statements

Planning Director
1. We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter dated January 22, 2019, for the preparation and fair presentation of the financial statements of the various opinion units referred to above in accordance with U.S. GAAP. We have reviewed, approved, and taken responsibility for the financial statements and related notes.
 2. We have reviewed and approved the various adjusting journal entries that were proposed by you for recording in our books and records and reflected in the financial statements.
 3. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
 4. We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
 5. Significant assumptions used by us in making accounting estimates are reasonable.
 6. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP. For the purposes of this letter, related parties mean members of the governing body; board members; administrative officials; immediate families of administrative officials, board members, and members of the governing body; and any companies affiliated with or owned by such individuals.
 7. All events subsequent to the date of the financial statements and for which U.S. GAAP requires adjustment or disclosure have been adjusted or disclosed.

8. The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.
9. With regard to items reported at fair value:
 - a. The underlying assumptions are reasonable and they appropriately reflect management's intent and ability to carry out its stated courses of action.
 - b. The measurement methods and related assumptions used in determining fair value are appropriate in the circumstances and have been consistently applied.
 - c. The disclosures related to fair values are complete, adequate, and in conformity with U.S. GAAP.
 - d. There are no subsequent events that require adjustments to the fair value measurements and disclosures included in the financial statements.
10. All component units, as well as joint ventures with an equity interest, are included and other joint ventures and related organizations are properly disclosed.
11. All funds and activities are properly classified.
12. All funds that meet the quantitative criteria in GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and GASB Statement No. 37, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments: Omnibus*, for presentation as major are identified and presented as such and all other funds that are presented as major are considered important to financial statement users.
13. All components of net position and fund balance classifications have been properly reported.
14. All revenues within the statement of activities have been properly classified as program revenues, general revenues, contributions to term or permanent endowments, or contributions to permanent fund principal.
15. All expenses have been properly classified in or allocated to functions and programs in the statement of activities, and allocations, if any, have been made on a reasonable basis.
16. All interfund and intra-entity transactions and balances have been properly classified and reported.
17. Deposit and investment risks have been properly and fully disclosed.
18. Capital assets, including infrastructure assets, are properly capitalized, reported, and if applicable, depreciated.
19. All required supplementary information is measured and presented within the prescribed guidelines.

Information Provided

20. We have provided you with:
 - a. Access to all information, of which we are aware that is relevant to the preparation and fair presentation of the financial statements of the various opinion units referred to above, such as records, documentation, meeting minutes, and other matters;
 - b. Additional information that you have requested from us for the purpose of the audit; and
 - c. Unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence.
21. All transactions have been recorded in the accounting records and are reflected in the financial statements.
22. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
23. We have no knowledge of any fraud or suspected fraud that affects the entity and involves:
 - a. Management;

- b. Employees who have significant roles in internal control; or
- c. Others where the fraud could have a material effect on the financial statements.

24. We have no knowledge of any allegations of fraud, or suspected fraud, affecting the entity's financial statements communicated by employees, former employees, vendors, regulators, or others.
25. We are not aware of any pending or threatened litigation and claims whose effects should be considered when preparing the financial statements and we have not consulted legal counsel concerning litigation or claims.
26. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.
27. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in accounting, internal control, or financial reporting practices.
28. The government has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
29. We have disclosed to you all guarantees, whether written or oral, under which the government is contingently liable.
30. We have identified and disclosed to you the laws, regulations, and provisions of contracts and grant agreements that could have a direct and material effect on financial statement amounts, including legal and contractual provisions for reporting specific activities in separate funds.
31. There are no:
 - a. Violations or possible violations of laws or regulations, or provisions of contracts or grant agreements whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency, including applicable budget laws and regulations.
 - b. Unasserted claims or assessments that our lawyer has advised are probable of assertion and must be disclosed in accordance with GASB-62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.
 - c. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by GASB-62.
32. The government has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset or future revenue been pledged as collateral, except as disclosed to you.
33. We have complied with all aspects of grant agreements and other contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
34. We have disclosed to you all significant estimates and material concentrations known to management that are required to be disclosed in accordance with GASB-62. Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.

Supplementary Information in Relation to the Financial Statements as a Whole

35. With respect to the supplementary information accompanying the financial statements:
 - a. We acknowledge our responsibility for the presentation of the supplementary information in accordance with accounting principles generally accepted in the United States of America.
 - b. We believe the supplementary information, including its form and content, is fairly presented in accordance with accounting principles generally accepted in the United States of America.

- c. The methods of measurement or presentation have not changed from those used in the prior period.
- d. We believe the significant assumptions or interpretations underlying the measurement or presentation of the supplementary information, and the basis for our assumptions and interpretations, are reasonable and appropriate in the circumstances.

Required Supplementary Information

36. With respect to the required supplementary information accompanying the financial statements:
- a. We acknowledge our responsibility for the presentation of the required supplementary information in accordance with accounting principles generally accepted in the United States of America.
 - b. We believe the required supplementary information, including its form and content, is measured and fairly presented in accordance with accounting principles generally accepted in the United States of America.
 - c. The methods of measurement or presentation have not changed from those used in the prior period.
 - d. We believe the significant assumptions or interpretations underlying the measurement or presentation of the required supplementary information, and the basis for our assumptions and interpretations, are reasonable and appropriate in the circumstances.

INDEPENDENT AUDITORS' REPORT

April 12, 2019

Board of Trustees
Watertown Charter Township
Grand Ledge, Michigan

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of *Watertown Charter Township, Michigan* (the "Township"), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Watertown Charter Township as of December 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Rehmann Lobson LLC

MANAGEMENT'S DISCUSSION AND ANALYSIS

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Management's Discussion and Analysis

As the Board of Watertown Charter Township, Clinton County, Michigan, we offer readers of the Township's financial statements this narrative overview and analysis as an explanation of the financial activities of the Township for the fiscal year ended December 31, 2018.

Financial Highlights

· Total net position	\$15,083,161
· Change in total net position	460,273
· Fund balances, governmental funds	5,216,719
· Change in fund balances, governmental funds	93,973
· Unassigned fund balance, general fund	1,339,501
· Change in fund balance, general fund	90,766
· Installment debt outstanding	565,000
· Change in installment debt	(580,000)

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Township's assets, liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Township that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Township include legislative, general government, public safety and health, public works, community and economic development and recreation and culture. The business-type activities of the Township include sanitary sewer and water distribution operations.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Management's Discussion and Analysis

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Township maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, which is considered to be a major fund, and for the two nonmajor funds, the Township improvement revolving fund and the cemetery improvement fund, in the aggregate. The general fund is where the Township funds are held to cover budgeted expenditures for the year. In layman terms this is like a household checking account, out of which the township pays for its bills. Within the Township general fund is an account called fund balance. The fund balance is like a savings account, it is where the Township saves for special projects/needs and where unspent budgeted funds are kept for future use.

The Township adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided herein to demonstrate compliance with those budgets.

Proprietary Funds. Enterprise funds, the only propriety fund type used by the Township, are used to report the same functions presented as business-type activities in the government-wide financial statements. The Township uses enterprise funds to account for its sanitary sewer and for water distribution operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements provide separate information for the sanitary sewer and water distribution systems, both of which are considered to be major funds of the Township. Proprietary funds are where the user fees collected on behalf of the township are held for specific purposes. For example, sewer use bills, fire hydrant user fees, special assessments and special fees are used to pay for the sewer system operation, fire hydrants, bond payments for the developments for which they are collected.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Township's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Fiduciary funds are all the money's collected by the Township meant for another agency, for example, school taxes, Township taxes, library taxes, escrow accounts.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Watertown Charter Township, assets for all activities exceeded liabilities and deferred inflows of resources by \$15,083,161 at the close of the most recent fiscal year.

Of the Township's net position, \$4,710,082 (31 percent) reflects its investment in capital assets (e.g. land, land improvements, buildings and improvements, equipment, vehicles, and sewage disposal system - net of applicable depreciation); less any related debt used to acquire those assets that is still outstanding. The Township uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Township's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Management's Discussion and Analysis

At the end of the current year, due to conservative fiscal management, the Township is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

The government's net position for all activities increased by \$460,273 during the current fiscal year.

	Net Position

Governmental Activities. The net position of the governmental activities increased by \$202,876. This is due to a decrease in road project related expenses in the current year as a majority of the projects were completed in fiscal year 2017.

Business-type Activities. The net position of the business-type activities increased by \$257,397. This is primarily due to a transfer in from the general fund to cover the additional sewer costs related to the Westwinds Sewer project.

Financial Analysis of the Township's Funds

As noted earlier, the Township uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds. The focus of the Township's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Management's Discussion and Analysis

As of the end of 2018, the Township's governmental funds reported combined ending fund balances of \$5,216,719, an increase of \$93,973 in comparison with the prior year. Approximately 26 percent of this total amount, or \$1,339,501, constitutes unassigned fund balance, which is an adequate amount to keep the Township operating in the case of unforeseen emergencies. The nonspendable portion of the fund balance, \$935, represents amounts prepaid for 2019 expenditures in 2018. The restricted portion of the governmental fund balance, \$233,947, is special assessments payments received for future bond payments. The assigned amount of \$1,005,598 is for Township Hall improvements. The remainder of the fund balance, \$2,636,738, is committed and acts as the Township's savings account for specific needs and projects.

The general fund is the chief operating fund of the Township. At the end of the current fiscal year, unassigned fund balance of the general fund was \$1,339,501 while total fund balance was \$4,923,302. The fund balance of the Township's general fund increased by a total \$90,766 during the current fiscal year. The increase in fund balance is directly related to the Township continuing to be conservative as revenue sources continue to be uncertain. The support of the Township Board and lack of high turnover by department heads has assisted in supporting a conservative approach and operating with fiscal restraint.

Proprietary Funds. The Township's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the sewer fund and water extension funds at the end of the year amounted to \$3,525,790 and \$665,008, respectively. The sewer fund had an increase for the year of \$198,577 and the water extension fund had an increase for the year of \$58,820, in total net position.

General Fund Budgetary Highlights

Differences between the original and final amended budgets were caused by construction costs being higher than anticipated. This led to increased building, electrical, mechanical, and plumbing inspection fees owed to inspectors. The Board also made several supplemental budgetary appropriations throughout the year which were not considered material.

Capital Asset and Debt Administration

Capital Assets. The Township's investment in capital assets for its governmental and business-type activities as of December 31, 2018, amounted to \$5,095,082 (net of accumulated depreciation). Capital assets balances for the current year and the previous year ended December 31 were as follows:

	Governmental Activities		Business-type Activities		Total	
	2018	2017	2018	2017	2018	2017
Land	\$ 93,846	\$ 93,846	\$ 82,887	\$ 82,887	\$ 176,733	\$ 176,733
Land improvements	80,118	82,702	-	-	80,118	82,702
Buildings and improvements	109,758	76,411	-	-	109,758	76,411
Equipment	4,656	13,609	-	-	4,656	13,609
Sewage disposal system	-	-	4,723,817	4,940,839	4,723,817	4,940,839
Total capital assets, net	<u>\$ 288,378</u>	<u>\$ 266,568</u>	<u>\$ 4,806,704</u>	<u>\$ 5,023,726</u>	<u>\$ 5,095,082</u>	<u>\$ 5,290,294</u>

The decrease in the Township's investment in capital assets for the current fiscal year of \$195,212 resulted primarily from depreciation expense exceeding capital asset additions. Additional information on capital assets can be found in the notes to the financial statements.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Management's Discussion and Analysis

Long-term Debt. At the end of the current fiscal year, the Township had total bonded debt outstanding of \$565,000. The entire debt is backed by the full faith and credit of the Township. Special assessment revenue is being collected to pay these bonds. Outstanding balances for the current year and the previous year ended December 31 were as follows:

	Governmental Activities		Business-type Activities		Total	
	2018	2017	2018	2017	2018	2017
Special assessment bonds	\$ 105,000	\$ 230,000	\$ 460,000	\$ 735,000	\$ 565,000	\$ 965,000
Sewage disposal system bonds	-	-	-	180,000	-	180,000
Total bonded debt outstanding	<u>\$ 105,000</u>	<u>\$ 230,000</u>	<u>\$ 460,000</u>	<u>\$ 915,000</u>	<u>\$ 565,000</u>	<u>\$ 1,145,000</u>

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total assessed valuation. Additional information on long-term debt outstanding can be found in the notes to the financial statements.

Economic Factors and Next Year's Budget and Rates

The following factors were considered in preparing the Township's budget for the 2019 fiscal year:

- The uncertainty of State revenue sharing.
- Department managers operating with a conservative and fiscally responsible budget approach.
- An increase in costs for the fire and ambulance services.
- Sewer infrastructure improvements.
- The Board of Trustees has passed a conservative balanced budget for 2019.

Requests for Information

This financial report is designed to provide a general overview of the Township's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information are welcomed and should be addressed to the Township Manager, Watertown Charter Township, 12803 S. Wacousta Road, Grand Ledge, Michigan 48837, email: JTubbs@watertowntownship.com.

Reconciliation

Fund Balances of Governmental Funds
to Net Position of Governmental Activities
December 31, 2018

Fund balances - total governmental funds	\$ 5,216,719
Amounts reported for <i>governmental activities</i> in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources, and therefore not reported in the funds.	
Capital assets not being depreciated	93,846
Capital assets being depreciated, net	194,532
The focus of governmental funds is on short-term financing. Accordingly, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred inflows of resources in the governmental funds, and thus are not included in fund balance.	
Unavailable revenue	21,900
Unavailable assets held for resale	40,120
Unavailable long-term special assessments receivable	125,748
Certain liabilities, such as bonds payable, are not due and payable in the current period, and therefore are not reported in the funds.	
Bonds payable	(105,000)
Accrued interest on long-term debt	(1,696)
Compensated absences	(46,472)
Net position of governmental activities	<u>\$ 5,539,697</u>

The accompanying notes are an integral part of these financial statements.

Reconciliation

Net Changes in Fund Balances of Governmental Funds
to Change in Net Position of Governmental Activities
For the Year Ended December 31, 2018

Net change in fund balances - total governmental funds	\$ 93,973
Amounts reported for <i>governmental activities</i> in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital assets purchased	40,202
Depreciation expense	(18,392)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred to the following fiscal year.	
Net change in unavailable special assessments receivable	(44,710)
Net change in unavailable revenue	6,770
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term debt in the statement of net position.	
Principal payments on long-term debt	125,000
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Change in accrued interest on long-term debt	2,223
Change in the accrual for compensated absences	(2,190)
Change in net position of governmental activities	<u>\$ 202,876</u>

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Watertown Charter Township, Michigan is a municipal corporation governed by an elected supervisor and a seven-member board. The Township has determined that no entities should be consolidated into the financial statements as component units. The criteria for including a component unit include significant operational or financial relationships with the government.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, except for agency funds, which do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

Property taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and as such have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Township reports the following major governmental fund -

The *general fund* is the government's primary operating fund. It accounts for all the financial resources of the general government, except those accounted for and reported in another fund.

The Township reports the following major proprietary funds:

The *sewage disposal fund* accounts for the activities of the government's sewage disposal system.

The *water extension fund* accounts for the debt payments of the government's water distribution system.

Additionally, the Township reports the following fund types:

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. These funds are used to account for assets that the government holds for others in an agency capacity (such as taxes collected for other governments).

Amounts reported as *program revenues* include: 1) charges to customers or applicants for goods, services, or privileges provided and includes special assessments, and 2) operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the government's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Restricted net position includes assets that are subject to restrictions beyond the government's control. The restrictions may be externally imposed or imposed by law. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

Assets, Liabilities, Deferred Inflows of Resources, and Equity

Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value.

State statutes and Township policy authorize the Township to invest in:

Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.

Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.

Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.

Bankers' acceptances of United States banks.

Obligations of the State of Michigan and its political subdivisions, that, at the time of purchase are rated as investment grade by at least one standard rating service.

Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items when purchased in both government-wide and fund financial statements.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, equipment, vehicles, and the sewer system, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated acquisition cost as of the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the asset constructed.

Capital assets of the primary government are depreciated using the straight-line method over the following estimated useful lives:

	Years
Land improvements	15-40
Buildings and improvements	15-40
Sewage disposal system	34-40
Equipment	3-10
Vehicles	5-10

Compensated Absences

It is the government's policy to permit eligible employees to accumulate earned but unused vacation and sick pay benefits. Union employees are allowed to accumulate an unlimited amount of sick leave and non-union employees are allowed to accumulate 480 hours of sick leave, which is paid only upon illness while in the employ of the Township or at a rate of 50% upon termination of employment. Union employees are allowed to accumulate five days of vacation time and non-union employees are allowed to accumulate up to twenty days of vacation time. Employees are only paid for unused vacation at the time of termination. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long term debt and other long term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

Deferred Inflows of Resources

In addition to liabilities, the statement of net position will report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time. The governmental funds report unavailable revenues, which arises only under a modified accrual basis of accounting, from special assessments receivable, accounts receivable, and assets held for resale. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In addition, deferred inflows of resources are reported in the government-wide and governmental fund financial statements for property taxes levied during the year that were intended to finance future periods.

Fund Equity

Governmental funds report *nonspendable fund balance* for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. *Restricted fund balance* is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. *Committed fund balance* is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Trustees (the government's highest level of decision-making authority). A motion by the Board of Trustees is required to establish, modify, or rescind a fund balance commitment. The Township reports assigned fund balance for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Trustees will assign any fund balance amounts. *Unassigned fund balance* is the residual classification for the general fund.

When the government incurs an expenditure for purposes for which various fund balance classifications can be used, it is the government's policy to use restricted fund balance first, then committed fund balance, assigned fund balance (if applicable), and finally unassigned fund balance.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates. The Township utilizes various investment instruments which are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

2. BUDGETARY INFORMATION

An annual budget is adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year end.

The budget for the general fund is adopted at the department level. The government does not utilize encumbrance accounting.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

3. EXCESS OF EXPENDITURES OVER BUDGET

State statutes provide that a local unit shall not incur expenditures in excess of the amount appropriated. For the year ended December 31, 2018, there were no expenditures in excess of appropriations.

4. DEPOSITS AND INVESTMENTS

A reconciliation of cash and investments as shown on the Statement of Net Position and Statement of Fiduciary Assets and Liabilities to deposits and investments as classified for note disclosure purposes is as follows:

Statement of Net Position

Cash and cash equivalents	\$ 5,633,542
Restricted cash and cash equivalents	369,728
Investments	2,966,187
Restricted investments	431,184

Statement of Fiduciary Assets and Liabilities

Cash and cash equivalents	330,896
Investments	<u>1,806,314</u>

Total	<u><u>\$ 11,537,851</u></u>
-------	-----------------------------

Following is a reconciliation of deposit and investment balances as of December 31, 2018:

Deposits and investments

Bank deposits:

Checking and savings accounts	\$ 1,972,433
Certificates of deposit	4,361,333
Investments	5,203,685
Cash on hand	<u>400</u>

Total	<u><u>\$ 11,537,851</u></u>
-------	-----------------------------

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned. State law does not require and the Township does not have a policy for deposit custodial credit risk. As of year end, \$2,117,174 of the Township's bank balance of \$6,314,488 was exposed to custodial credit risk because it was uninsured and uncollateralized.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

The Township chooses to disclose its investments by specifically identifying each. As of year end, the Township had the following investments:

	Fair Value	Credit Rating	Maturity
Michigan CLASS government investment pool	\$ 4,322,014	AAAm	N/A
U.S. agencies:			
Federal Home Loan Mortgage Corporation	398,101	AA+ S&P	1-5 years
Federal Home Loan Bank	121,206	AA+ S&P	1-5 years
Federal National Mortgage Association	362,364	AA+ S&P	1-5 years
Total	<u>\$ 5,203,685</u>		

Custodial Credit Risk - Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the Township does not have a policy for investment custodial credit risk. None of the Township's investments were exposed to custodial credit risk at year end.

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments in the accounting policies. The Township's investment policy does not have specific limits in excess of state law on investment credit risk. Credit risk ratings, where applicable, have been identified above for the Township's investments.

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified in the accounting policies. The Township's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Maturities of investments, where applicable, have been identified above for the Township's investments.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments in the accounting policies. The Township's investment policy does not have specific limits in excess of state law on concentration of credit risk. All investments held at year end are reported above.

Fair Value. The Township categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. These levels are determined by the Township's investment manager, and are determined at the fund level based on a review of the investment's class, structure, and what kind of securities are held in the funds. The investment manager will request the information from the fund manager, if necessary.

The Township's recurring fair value measurements as of December 31, 2018 were related to its investments in government agency funds. These investments are valued using significant other observable inputs of the underlying securities and bonds (Level 2 inputs). The investments in the Michigan CLASS government investment pool are not categorized as they are measured at net asset value per share or its equivalent.

Accrued interest	6,217	1,212	7,429
	<u>\$ 6,217</u>	<u>\$ 95,092</u>	<u>\$ 101,309</u>

7. INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS

Interfund balances resulted primarily from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. At December 31, 2018, there were no due to/due from other funds present.

For the year ended December 31, 2018, interfund transfers consisted of \$185,970 from the general fund to the sewage disposal enterprise fund for repayment of sewer debt. In addition, the capital projects cemetery improvement nonmajor governmental fund transferred \$5,000 to the general fund for cost reimbursement.

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Notes To Financial Statements

10. JOINT VENTURES

Southern Clinton Township Municipal Utilities Authority

The Southern Clinton Township Municipal Utilities Authority was created by contractual agreement between the Township, DeWitt Charter Township, Bath Charter Township, and the City of DeWitt to operate, maintain, administer and manage the sewage disposal system for the benefit of the contracting municipalities. Currently, the Township's ownership percentage in the joint venture is 16.202%. As of December 31, 2017, the date of the most recent audit report of the Authority, the Township's share of the Authority's net position was \$1,209,379. Separate financial statements for the Southern Clinton Township Municipal Utilities Authority are available at the office of the Authority at 3671 W. Herbison Road, DeWitt, MI 48820.

Looking Glass Regional Fire Authority

The Township created a joint fire department with Eagle Township to be known as the Looking Glass Regional Fire Authority. The Authority provides fire protection services to the entire geographical area comprising Eagle Township and the Charter Township of Watertown, and may contract with other municipalities to provide fire protection services. Currently, the Authority is funded primarily through contributions from Watertown Charter Township (63%) and Eagle Township (37%). During the year ended December 31, 2018, the Township contributed \$298,956 to the Authority. Separate financial statements for the Looking Glass Regional Fire Authority are available at the office of the Authority at 7720 W. Grand River Avenue, Grand Ledge, MI 48837.

11. RISK MANAGEMENT

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The government carried commercial insurance to cover all risks of losses during the year ended December 31, 2018. The Township has had no settled claims from these risks that exceeded its commercial coverage in any of the past three fiscal years.

12. PROPERTY TAXES

The government's property taxes are levied on the assessed taxable value of property in the Township each December 1, which is the lien date, and are due in full by March 1 of the succeeding year, at which time uncollected taxes become delinquent. The December 1 levy is recorded as receivable and deferred inflows at year end because it is intended to fund expenditures of the following fiscal year.

Assessed values as established annually by the government, and subject to acceptance by the Township, are equalized by the State at an estimated 50% of current market value. Real and personal property in the Township for the 2017 levy were assessed and equalized at \$278,000,778 (not including properties subject to Industrial Facilities Tax exemption), representing roughly 50% of estimated current market value. The government's general operating tax rate for the 2017 levy was 4.4823 mills.

WATERTOWN CHARTER TOWNSHIP, MICHIGAN

Notes To Financial Statements

13. TAX ABATEMENTS

The Township received reduced property tax revenues during 2018 as a result of industrial facilities tax exemptions (IFT's).

The IFT's were entered into based upon the Plant Rehabilitation and Industrial Development Districts Act, (known as the Industrial Facilities Exemption), PA 198 of 1974, as amended. IFT's provide a tax incentive to manufacturers to enable renovation and expansion of aging facilities, assist in the building of new facilities, and to promote the establishment of high tech facilities. Properties qualifying for IFT status are taxed at 50% of the millage rate applicable to other real and personal property in the Township. The abatements amounted to \$3,235 in reduced Township tax revenues for 2018.

14. CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Township expects such amounts, if any, to be immaterial.

15. PENSION PLAN

The Watertown Charter Township Group Pension Plan is a defined contribution pension plan established by the Township to provide retirement benefits to all participating full-time employees of the Township. The Township has an agreement with Michigan Employees Retirement System (MERS) to administer the Plan. Plan provisions and contribution requirements are established and may be amended by the Township Board. The Township is required to contribute from 8% of employee gross earnings, and the Township matches employee contributions up to 6%. Employee contributions are optional. Employee contributions vest immediately, whereas employer contributions vest at a rate of 20% per year. There are 12 participants in the plan.

For the year ended December 31, 2018, the Township's contribution to the Plan was \$72,381. Employee contributions were \$51,881.

16. STATE CONSTRUCTION CODE ACT COMPLIANCE

Public Act 245 of 1999 amended the State Construction Act to require Michigan municipal governments to establish fees that bear a reasonable relationship to the cost of operating their building departments, effective January 1, 2000. The Township has elected to record this activity in the general fund.

Public Act 245 of 1999 amended the State Construction Act to require Michigan municipal governments to establish fees that bear a reasonable relationship to the cost of operating their building departments, effective January 1, 2000. The Township has elected to record this activity in the general fund.
